Project:

Movie Ticket Simulator

Developer Details:

Pradeepa S

Employee id – 2529352

Algorithm:

Step 1: Start the application

Step 2: First need to choose whether are you a user or admin

Step 3: If Admin means, you have four options as add user, Remove user, print user and exit from application

Step 4: If User means, go to Login page.

Step 5: In login page, you login directly if you already have a account otherwise register and then login

Step 6: Select the Movie details such as Movie name, show time and seats.

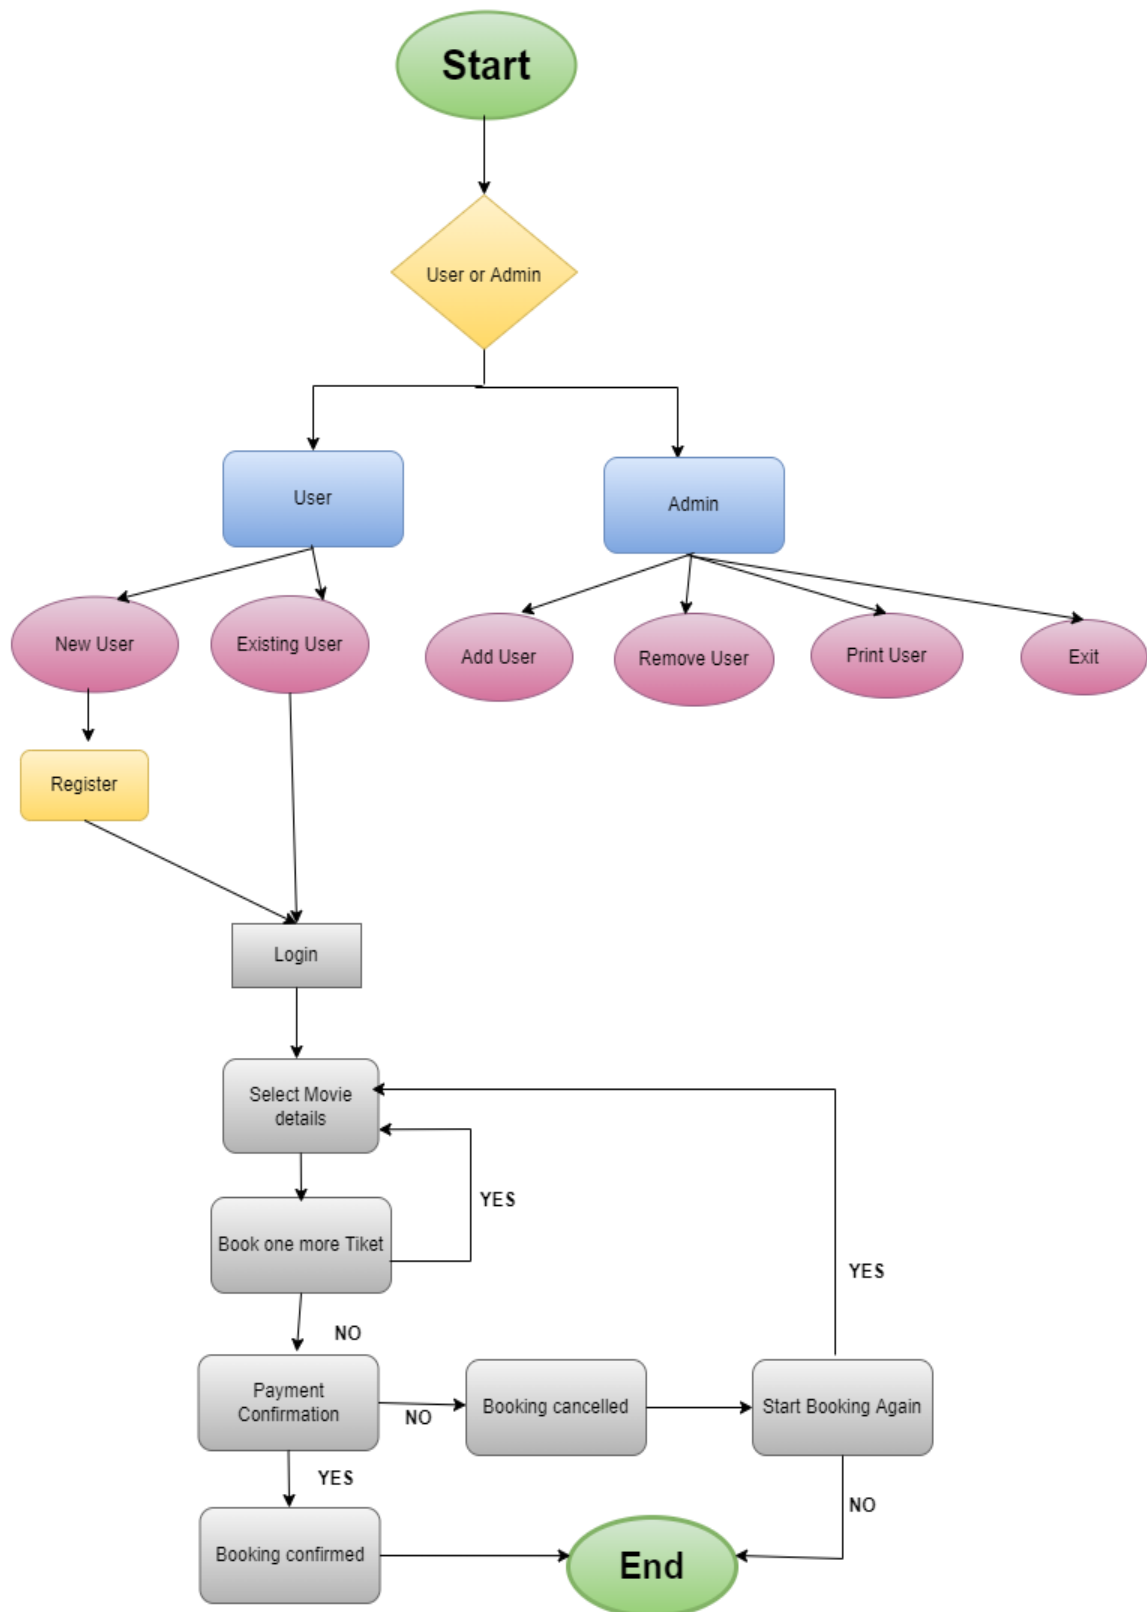

Step 7: After selecting all the details, proceed to payment.

Step 8: After confirmation from user, do payment. Ticket is booked once payment is done successfully.

Step 9: Book another ticket if need otherwise quit from the application.

Step 10: End the program.

Flowchart:

GitHub Link:

Under the repository TEST_ABC, the file named MovieTicketSimulator is the project file.
